ortant Business Transacted—Fxam Justion of Colored Candidates. The Memphis Preshytery held an adjourned meeting in the First church, Monday and Tuesday of this week, and transacted some very important business. The Rev. J. L. Martin, D.D., formerly of Abbeville, S. C., presented a letter of dismission from the South Carolina Presbytery, and, after a thorough examination on experimental religion, motives for entering the ministry, theology and church government, was received and enrolled as a member of the Memphis Presbytery.

A call from the Alabama Street church was then placed in his hands and accepted by him. His formal instal lation as pastor of this church will take place in October. The Rev. Dr. Boggs was appointed to preach the installation sermon and deliver the charge to the people. Dr. Martin has brought his family to the city and already entered upon the work of his new field. Every Presbyterian church in the city now has a pastor.

The business of tearing down buildings is always a difficult one, for the authorities. It is easy to condemn, but to carry out such a resolution involves miles of red tape. To such an extent is this true that the officials often hesitate to act, even in extreme cases. That the commissioners have the power there seems to be little doubt, but the ready execution of an order to tear down depends largely upon the property owner. The regular course is kinst to declare a building unsafe in a formal way, and then to appoint an agent to carry out the order to remove, which may be limited to thirty days. The owner of the property, however, has the option of enjoining, and by that means may keep the building standing.

I have been very sick over two years. They all gave me up as pasteure. I tried the most skillful physicians, but they did not reach the worst part. The lungs and heart would fill up every night and distress me, and my throat was very had. I told my children I should never do in peace till I had tried Hop Bitters. When I had taken two bottles they helped me very mach indeed. When I had taken two more bottles! was well. There was a lot of sick folks here who have seen how they cured me, and they used them and were cured, and icel as thankful as I do that there is so valuable a medicine made. Yours truly, MRS.
